20260116	VER1	

Technical Requirements

1. All dimensions of product models shall be subject to the 3D drawings. Undimensioned dimensions shall refer to the 3D models.
2. For all dimensions without specified tolerances, the tolerances shall comply with those stated in the title block.
3. The tolerance of product weight shall be controlled within 1% of the nominal weight.
4. The product surface shall be free from visible injection molding defects such as weld lines, stress marks and silver streaks to the naked eye, with uniform color and good appearance.
5. The product shall be free from material shortage, excess material, sink marks and bulges.
6. The molded products shall comply with CE, RoHS and REACH requirements.
