Technical Requirements

1. All product dimensions shall be governed by the 3D model. For dimensions not specified on the drawing, refer to the 3D model.
2. For all dimensions without specified tolerances, the general tolerances indicated in the title block shall apply.
3. The product weight tolerance shall be controlled within 1% of the nominal product weight.
4. The product shall be free from visible injection molding defects, including but not limited to weld lines, stress marks, flow marks, or other appearance defects visible to the naked eye. The color shall be uniform and the overall appearance shall be satisfactory.
5. The product shall be free from short shots, flash, sink marks, and bulging defects.
6. The molded product shall comply with CE, RoHS, and REACH requirements.
7. The material shall be Carbon Fiber Reinforced Nylon
